

## Table of Contents

<b>Acknowledgment .....</b>	<b>1</b>
<b><u>Chapter 1</u></b>	
<b>Risk Management in Swallowing Movement .....</b>	<b>9</b>
A) Eating and Swallowing	9
B) Dysphagia and Aspiration Pneumonia	12
C) Mechanism of Dysphagia and Risk Management	16
D) Examination for Dysphagia: Evaluation System for Aspiration Risk	21
E) Risk Analysis by HAZOP	24
<b><u>Chapter 2</u></b>	
<b>Medical HAZOP .....</b>	<b>25</b>
A) HAZOP (Hazard and Operability Study)	25
B) Medical HAZOP	30
<b><u>Chapter 3</u></b>	
<b>HAZOP for Swallowing Disorders .....</b>	<b>48</b>
<b><u>Chapter 4</u></b>	
<b>Application of HAZOP for Risk Management in Dysphagia .....</b>	<b>54</b>
4.1 Medical HAZOP in Clinical Settings.....	54
A) Challenges for medical accidents	54
B) A model for developing safety management	63
C) Application of medical HAZOP	67
4.2 Risk Communication and HAZOP.....	70
A) Risk communication using risk matrix	70
B) Category of human factor and HAZOP	73
C) Human factors and guidewords in HAZOP	77

- 4.3 HAZOP and Rehabilitation for Dysphagia ..... 79
  - A) Swallowing phases and risks 79
  - B) Pharyngeal Phase 80
- 4.4 Application to Clinical Pathway ..... 92
  - A) Clinical Pathway in health care 92
  - B) Application of HAZOP to Clinical Pathway 96
- 4.5 Application of HAZOP to In-Home Care ..... 102
  - A) Tips for organizing care team for dysphagia 104
  - B) Case presentation 107
- 4.6 Application to Basic Research for Dysphagia ..... 110
  - A) Application to basic research for dysphagia 110
  - B) Research on swallowing control 116

## List of Tables and Figures

### Tables

Table 1.1 Swallowing process and P&ID .....	12
Table 1.2 Survey of dysphagia in Japan .....	14
Table 1.3 Five phases of swallowing movement .....	16
Table 1.4 Mechanism of airway protection .....	20
Table 1.5 Organs with valve function for swallowing .....	20
Table 1.6 Definition of HAZOP terminology in dysphagia analysis .....	24
Table 2.1 Methods for risk assessment and cause/result .....	25
Table 2.2 An example of WBS .....	27
Table 2.3 Process Keywords (First Group) .....	28
Table 2.4 Process Keywords (Second Group) .....	29
Table 2.5 HAZOP Guidewords .....	29
Table 2.6 Comparison of Process Safety Management in industry and medicine .....	35
Table 2.7 Work Breakdown Structure (WBS) Sheet .....	42
Table 2.8 Basic Guidewords (secondary keywords) .....	44
Table 2.9 HAZOP Sheet .....	45
Table 2.10 Level of medical accident/incident in Japan .....	46
Table 2.11 Classification of frequency .....	46
Table 3.1 Nodes and subnodes in swallowing process .....	48
Table 3.2 Deviation in SW4-3 (Laryngeal elevation) .....	50
Table 3.3 Deviation of Less in SW4-3 (Laryngeal elevation) : analysis of effects and cause .....	50
Table 3.4 Deviation of Less in SW4-3 (Laryngeal elevation) : analysis of frequency and impact .....	51
Table 3.5 Analysis of risk rank in each node .....	53
Table 4.1 Contents and degree of accidents in 2006 (Japan) .....	56
Table 4.2 Site and degree of accident in 2006 .....	57
Table 4.3 Risks for falls (brainstorming) .....	69
Table 4.4 HAZOP guidewords related to human factors .....	78
Table 4.5 HAZOP for human factors in medication .....	79
Table 4.6 Progress of Clinical Pathway .....	95
Table 4.7 Objectives and results of Clinical Pathway .....	96
Table 4.8 Acute phase: WBS in physical assessment .....	98

Table 4.9 Time course of execution .....	101
Table 4.10 Role for management for deglutition disorder .....	104
Table 4.11 WBS of training for dysphagia based on the first examination .....	108
Table 4.12 Tips for team care .....	110
Table 4.13 Node ingestion and bolus formation .....	112
Table 4.14 Node from closure of nasopharynx to cough reflex .....	114
Table 4.15 Gvideword and deviation .....	117

## Figures

Figure 1.1 Structures involved in swallowing .....	10
Figure 1.2 Piping and Instrumentation Diagram (P&ID) in swallowing .....	11
Figure 1.3 Cause of dysphagia (in-home service) .....	13
Figure 1.4 Route of nutrition .....	14
Figure 1.5 Route of tube feeding .....	15
Figure 1.6 Bolus in oral phase Circles are points to produce pressure .....	17
Figure 1.7 Bolus in pharyngeal phase .....	18
Figure 2.1 HAZOP Flow Chart .....	31
Figure 2.2 Frame of risk management (BS31100) .....	37
Figure 2.3 Heinrich's law .....	43
Figure 2.4 Objectives and procedure for HAZOP .....	44
Figure 2.5 Risk Matrix .....	47
Figure 3.1 Risk matrix in SW4.3-1 .....	52
Figure 4.1 Factors influencing medical quality .....	60
Figure 4.2 Black box of risks .....	66
Figure 4.3 Risks from prescription to injection .....	66
Figure 4.4 Swiss Cheese model .....	71
Figure 4.5 PERT and Clinical Pathway .....	93
Figure 4.6 Flows in Clinical Pathway .....	97
Figure 4.7 Critical Pathway and contents .....	99
Figure 4.8 Clinical Pathway and estimated risk .....	100
Figure 4.9 Time course of execution of contents .....	101
Figure 4.10 Team members associated with dysphagia care .....	103
Figure 4.11 Examination of Dysphagia .....	105
Figure 4.12 Two types of team approach .....	106
Figure 4.13 Timeline of the patient with dysphagia .....	109
Figure 4.14 Cerebral control of swallowing movement .....	111

List of Tables and Figures 7

Figure 4.15 Sequential movement of deglutition (Jean A. Physiological Rev. 2001.) ..... 111

Figure 4.16 Theoretical backgrounds of NIRS ..... 118

Figure 4.17 Localizafion of swallowing component ..... 119

Figure 4.18 Command Swallow (n=25) ..... 120

Figure 4.19 Command VS. Non-command (subtracted n=25) ..... 121
